

ANNUAL REVIEW

Jan - Nov 2021 Summary

UKHarvest is here for a simple purpose: to protect the environment by rescuing good food destined for landfill and to feed those in need, educate on nutrition, cookery skills and fighting food waste in the home.

OUR MISSION IS TO NOURISH OUR NATION

We provide much-needed assistance to charities and vulnerable people, by collecting surplus food from all types of food providers, delivering it to those in need directly. We help nurture those most food insecure, to live well, age well, and to help combat social isolation, through our surplus suppers/lunches, education on reducing food waste, and eating healthily.

OUR CORE VALUES

Collaborative

We act with integrity in all our conversations, actions and decisions and we appreciate and utilise the strengths of each person.

Open

We are proud of our achievements and celebrate our success and work together to make great things happen.

Focused

We focus on actions and activities that will make the biggest difference and are courageous in making tough decisions.

Curious

We approach issues and challenges with a growth mind-set and are keen to learn new ways of doing things.

Donnington Kitchen

A WORD FROM OUR VOLUNTEERS

Anne - Volunteer

"I have really enjoyed volunteering the last 5 months, working alongside you all and it has been great to see so many different aspects of your business. It has really helped me build my confidence after redundancy and give me a sense of purpose and worth."

Rachel - Volunteer

"I really enjoyed volunteering with you last Thursday! The herbs were a great way to reach out to people. I came home and made pesto with the greek basil!"
